- COPONENT B Page 4

COMPONENT 1A

During the past two months, Component 1.A.1 has made significant progress in asphalt work across various subprojects. This includes the completion of 2.8 km on Al-azareq - Al Dhalee Road, 2.9 km on Rubat Haiwah-Manwaz Road, 2.9 km on Bajil-Al Gunaydeah Assalif Road, and 1.9 km on the Zamn AL Sufla-Wadi Humam Road. Additionally, the team has carried out several other project activities

3

COMPONENT 1B

Through Component 1.B sub projects, RAP has successfully launched several subprojects under YELCP project, focusing significantly on labour-intensive activities and infrastructure maintenance for roads. This ensures safe transportation routes for local residents and provides employment opportunities for the community.

CUMULATIVE PROGRESS

COMPONENT 1A

■ Successful Completion of Al-Azarq - Al Dhalea Subproject in Al Dhalee Governorate by RAP

Rural Access Program (RAP) is thrilled to announce the successful completion of the Al-azarq - Al Dhalea subproject in Al Dhalee Governorate. This vital infrastructure project achieved 100% of its goals, enhancing road connectivity and safety for local communities. The project connects district centers to the governorate center, improving resident access and mobility. This accomplishment demonstrates RAP's commitment to rural development in Yemen. The project site handover is complete, marking a significant milestone in our ongoing infrastructure efforts.

■ RAP Completes Al Saheed Mountain - Bani Falah Subproject in Dhamar Governorate

In May 2024, RAP proudly completed the Al Saheed Mountain - Bani Falah subproject in Dhamar Governorate, achieving all goals. This highlights RAP's commitment to improving road infrastructure for economic growth and better quality of life. The project enhances community access to services and markets, benefiting the local economy. It also promotes sustainability by addressing climate change and improving road resilience. The site handover signifies a major milestone in our ongoing regional infrastructure efforts.

■ RAP Announces Handover of Yahar - Labous - Soaq Assalam Subproject Site in Lahj Gov.

RAP is excited to announce the handover of the Yahar - Labous - Soaq Assalam subproject site in Lahj Governorate, marking the initiation of works and the beginning of implementation. This maintenance project highlights RAP's commitment to developing road infrastructure and improving transportation in the region. By enhancing the quality of life for local residents and supporting economic development in Yemen, this project demonstrates our continuous commitment to promoting regional growth. The initial handover marks a significant milestone in our mission to develop sustainable and efficient infrastructure solutions.

COMPONENT 1B

Through Component 1.B sub projects, RAP has successfully launched several subprojects under YELCP project, focusing significantly on labour-intensive activities and infrastructure maintenance for roads. This ensures safe transportation routes for local residents and provides employment opportunities for the community.

COMPONENT 1.B STATUS

The status of subprojects under component 1.B.1 is:

- 4 subproject in the implementation phase
- 5 subprojects in the tendering phase
- 1 subprojects were approved
- 2 subprojects in the design review phase.

The status of subprojects under component 1.B.2 is:

- 3 subproject in the implementation phase
- 6 subprojects in the tendering phase
- 3 subprojects in the design review phase.
